Fifteen Davies Partners Named Leaders in Infrastructure

The *Lexpert Special Edition: Infrastructure* has named 15 Davies partners among Canada's elite practitioners for 2020, securing our standing as a leader in the infrastructure space.

The recognition caps another landmark year for the team, in which we advised on several award-winning deals, including

- Innovate Energy in its \$2.6-billion contract to modernize, maintain and operate the district energy system that heats 80 buildings and cools 67 buildings in Canada's capital region;
- CBHP Limited Partnership in its contract to design, build, finance and maintain the Corner Brook Acute Care Hospital in Corner Brook, Newfoundland; and
- Plenary PCL Properties Gatineau on the successful closing of its contract to design, build, finance, maintain and operate the Gatineau 2 Preservation and Access Facility, Library, and Archives, a new preservation facility in Gatineau, Québec.

The *Lexpert Special Edition: Infrastructure* profiles a noted group of Lexpert-ranked practitioners who serve the infrastructure sector (including public-private partnerships).
