Davies Earns Top Tier Rankings in *World Tax* 2021

International Tax Review (ITR) has affirmed Davies' reputation as a leading global tax adviser, ranking our firm as Tier 1 in Tax, Tax Controversy and Transactional Tax in its 2021 *World Tax* guide.

The recognition caps off a year of outstanding work on behalf of our clients, both domestically and globally. Notable recent mandates include advising Blackstone in its \$6.2-billion acquisition of Dream Global Real Estate Investment Trust; Alstom S.A. in the acquisition of Bombardier Transportation; and Apotex International Inc. in the merger to create Australia's largest generic pharmaceutical business and the sale of its commercial operations in five European countries.

World Tax is ITR's annual guide to the most effective tax practitioners in more than 50 jurisdictions globally, as determined by client and peer feedback and evidence of outstanding work in the past year.
